

which is compound #78 on pages 80 and 180 of the Specification. Additionally, this compound is specifically named in the specification on page 180 as 5-(1 β -methyl-4 β -hydroxy-2 β -hydroxymethylcyclohexyl)-4 α -aminomethyl-7 α β -methyl-1-methyleneoctahydroindene, ammonium acetate salt; is specifically claimed in Claim 8 (second compound); and is specifically described as being prepared in Example 8 in the Specification (page 79-83). Claims 1-4, 7, 8, 22 and 23 read on this species. Upon allowance of a generic claim reading on this species, Applicants respectfully request consideration of claims to additional species which include all the limitations of the allowed generic claim.

In making the above elections, Applicants retain the right to file continuations or divisionals on any non-elected subject matter. In addition, Applicants retain the right to request rejoinder of a method of use claim commensurate in scope with any allowed compound claim.

Reconsideration of the elected subject matter is now respectfully requested.

Respectfully submitted,
